Instruction

6151

Class Size

Every effort shall be made to maintain the number of students per academic class as follows:

Kindergarten	16-21
Grades 1-6	18-26
Grades 7-12	6-30

It is recognized that some classes may be outside this range, either larger or smaller. No class size shall exceed the highest numbers stated above for each category without coming to the attention of the Board of Education.

Recognizing the social and academic needs of younger children, the Board will attempt to keep average class sizes for earlier grades close to the beginning of the range. The Superintendent will monitor current class sizes and anticipated changes in enrollment. Adjustments requiring additional expenditures must be approved by the Board of Education.
