

AWESOME ACTIVITY WEEKS - SUMMER 2018

MAD SCIENCE SUMMER IN THE CANTON AREA!

E² - Engineering Explorers

Entering grades 1-5

Whether your child loves to build things or destroy them, this week of camp includes lots of both! The junior Mad Science engineers will design and build bridges and "skyscrapers" using simple tools and their imaginations. Kids will even construct a geodesic dome big enough for all the campers to sit inside! Then the machine madness starts as they discover how many different machines, simple & complex, we use in our daily lives. Campers will have fun designing simple machines using pulleys, wedges, screws and levers. Then we move on to engineering in action – your kids work together to brainstorm, design, test, evaluate and redesign problem-solving contraptions!

GROSS-O-RAMA

- NEW FOR 2018

Entering grades 1-5

Get ready for the science of grossness and ickiness! Discover the yucky science of bodies, chemistry, polymers, germs and nature. Discover how to extract DNA from various products, discover how germs spread, find out what an owl eats through the dissection of owl pellets, follow the human digestive process through GROSS hands on play, and experiment with ooey, gooey polymers and more! Eeew...THAT'S GROSS!

Secret Agent Lab

Entering grades 1-5

Develop your special agent and detective skill in this super hands-on week of fun! Uncover the science involved in evidence gathering and analysis. Sharpen your secret agent skills and discover how chemistry and the science of forensics can come to the aid of a secret agent. Identify and collect evidence – from fingerprints to tracks to trash! Secret agents-in-training will use science and awesome technological tools to connect the dots and help sniff out the suspects in this investigation into the science of sleuthing. Children should be reading at a 1st grade level to participate in this program.
